

Steel Sheets & Plates for Fabrication

Product Brochure

Overview

Hot and cold rolled sheet and plate products for fabrication shops and manufacturers.

Products in This Range

- **Hot Rolled Coil (HRC)** — General-purpose hot rolled steel coil for structural fabrication, pipe manufacturing, and general engineering work.
- **HRC Chequered Plate** — Hot rolled steel plate with a raised chequered (diamond/lentil) pattern, providing slip resistance for flooring and walkway applications.
- **Cold Rolled Coil (CRC)** — Precision cold rolled steel coil with a smoother surface finish and tighter dimensional tolerance than HRC.
